

Empirical probability of being (one-sided) Ramanujan

- | | |
|--------------------------------|------------------------|
| --- $F_1(0) = 0.831908$ | Abelian cover, $k = 4$ |
| 4-regular simple (Python) | Abelian cover, $k = 5$ |
| 4-regular simple (MATLAB) | Quaternion cover |
| 4-regular perm. model (MATLAB) | K_5 cover |
| Abelian cover, $k = 3$ | $K_5 - e$ cover |
